RE: Charge to the Task Force on Outward-Facing Activities

Thank you for your willingness to serve on the task force on outward-facing activities. I appreciate your commitment. I have asked Jeannie Phillips to set up an initial meeting of the group where Provost PraQC/5

- Those that are not directly related to UAF research or scholarly activities but are designed to offer experiences or are undertaken because UAF is an attractive venue (e.g., exercise classes such as yoga, vacation trips)
2. With the assistance of OMB staff, address the following questions:
 - What are the costs to deliver the program (e.g., time, materials, travel)?
 - How are the costs supported (e.g., user fees, grants, state support)?
 - How are the returns on investment measured?
 - How are the classes counted toward university metrics?
 - Are the activities candidates for micro-credentials?
 3. Consider all of the outreach activities and recommend if there are:
 - Activities we can stop doing,
 - Activities we need to continue doing as currently offered, or
 - Activities we need to continue doing but under a different business model, such as increasing user fees.

I look forward to meeting with you soon and receiving your recommendations later this summer.
