Solar System Matching Game

Discover the Solar System with a matching game!

Materials:

Two printed copies of the Solar System matching game cards*, recycled cereal bæs or cardstock, scissors, glue

*If you are not able to print the cals, try drawing your own!

Instructions:

Step 1:Prepare the game cards. Glue the printed sheets of solar system cards onto a recycled cereal box or cardstock. Once dry, cut the cards along the dotted lines You should have 24 cards (12 pairs). Use Mod Podge or a laminator for a more durable set.

Step 2:With very young children, play a matching game. Lay the cards face up and find pairs together.

To play a memory game:

- Placethe cardsfacedown in front of you.
- Thefirst playerturns over2 cards X
