ISBN-13: 978-1849713474 ISBN-10: 1849713472 (required)

Additional readings assigned will be provided

Course Description:

HSEM 613 serves as an overview to international disaster management (IDM) addressing the complex and interrelated issues of disasters in a global context. The course will explore historical, socio economic, risk, hazard, response, preparedness and recovery aspects of international disasters. Special emphasis will be placed on the understanding of those organizations and agencies which play a prominent role in the international disaster management arena.

Course Goals:

Upon completion of the course students will have been provided an overview of IDM and develop a better understanding for the complexities of disasters in an international context. Extensive use will be made of relevant case studies in disaster management to underscore the development of a working knowledge of the subject matter. Students will complete the M Tc 0 Tw 6
