

The UAF Faculty Senate took the following action at Special Meeting #223 on April 14, 2017:

MOTION:

Discontinue the Economics programs

The UAF Faculty Senate observes:

- Our recent history shows general education requirements mandating

programs.

• The current program was developed in 1990 and is not in compliance with the current standards.

• Student interest in the program has declined significantly since 2010.

Therefore, the UAF Faculty Senate is in favor of discontinuing the Economics programs.

Economics programs:
