UAF Staff Council

Response to Request for Information: What are we doing well and what can we do better (and how)

What are we doing well?

1. Expressing the interests and concerns of our constituents

2. Addressing issues in a timely manner (tuition waiver, tobacco surcharge)

5. UAF governance voice to constituents is confusing and broken

Suggestions: provide staff council handbook; have a dedicated council rep sit with employees and educate them about governance work with board

6. Staff Council does not have enough manpower; too many committees

Suggestions: we need more people on council, allow and staff to sit on

committees, allow units additional seats (although these seats are currently unfilled), simplify and streamline committees, hand out governance org charts

7. Increasing involvement
